Prompt 03 – Program Name

Prompt Overview: The objective of this prompt is to come up with a possible new name for the program.

Directions: Please read the entire prompt carefully and respond as instructed. One page minimum. Be sure to share your work with Mr. Smith as soon as you start working.

Prompt:

As you are aware, the Bridge Academy was given its name many years ago after a conversation between an administrator and a student within the program. The basis for the program's name is founded on what that particular student believed the program to represent in that moment. In the event there is a name change for this program, it would be great to have your input be a part of the conversation.

Your task is to consider and explain what this program means to you, what you feel the program represents, what makes it special, and come up with a new name for the program accordingly. In addition to your initial reasoning, you should also explain the significance of the name you have selected.

Take your time, but be sure to complete this prompt in the class time allotted.
